2. From the Results screen, click "Enter Score" or "Update Score" depending on whether you've already updated some information. Either button will be in the same place.
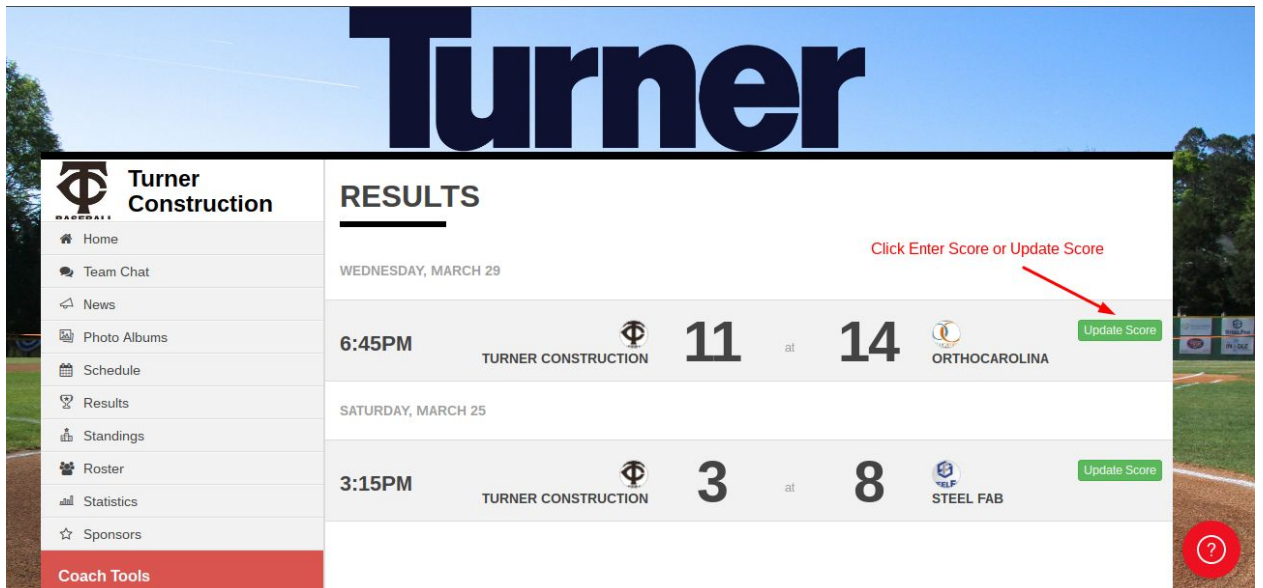

3. In the score screen, enter the number of runs scored by each team and then click Save and Update Stats to enter home runs and pitch counts.
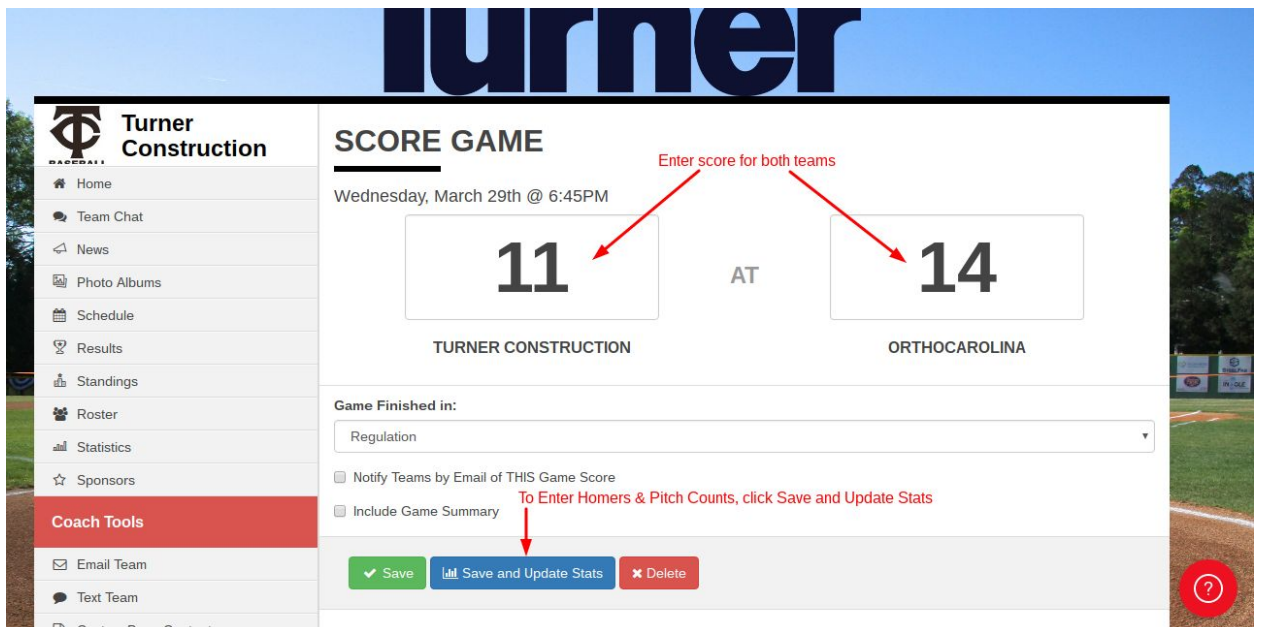

4. After clicking the button to update stats, the system will present a page showing the team's roster and stat categories. Users can go back and forth between the Hitting and PItching tabs without saving to enter data. Once complete, move down to the bottom of the page and hit Save. NOTE: Either team can update the score, but each team will have to enter their own statistics.
