- 5.) The Division Commissioners may, at any time, require submission or resubmission of any information required for the registration and eligibility certification of any player, and they may at any time temporarily suspend any player whose eligibility is in question until said player's eligibility has been clarified and approved.
- 6.) In all eligibility matters, any decision of the SFYBL Baseball Committee shall be final.

RULE 3: Player Transfers – Voluntary, Involuntary, Team Disbanded

A.) Definitions:

Transfer Player: a player who has been on a roster of a SFYBL Team (Not Disbanded team) from the previous season who is moving to a different team. NOTE: Not Disbanded teams are allowed only one(1) "transfer player" addition to their roster per year.

New Player: a player who has not been on a roster of an SFYBL Team from the previous season or a player who was on a team that is now "Disbanded" or a player whose former team has advanced to a higher division and said player has chosen to stay at the lower division, or a player who has aged out of the division where his former team is still playing. NOTE: Not Disbanded teams are allowed as many "new players" additions as their roster will accommodate.

Disbanded team: a disbanded team is a team not returning for the upcoming season. There may be several reasons why a team disbands. However, the league has established guidelines as to what constitutes disbandment: A team is considered disbanded when fewer than 7 players from the previous year's roster remain playing on the same roster.

A team is NOT disbanded when:

- i. Seven (7) or more players from the previous or current year's roster are still on the roster

- ii. The coach has left the team, yet the roster, from last season still remains intact (with at least 7 players).
- iii. The team changes its name.

If a team is not determined to be disbanded, then any player wishing not to play on that team will follow said guidelines as listed below (Voluntary Transfer - When a PLAYER chooses to leave his/her team)

Two (or more) coaches may decide to merge their teams into one team. However, any such merger must be submitted in writing, and approved, by the SFYBL Board of Directors.

B.) Voluntary Transfer - When a PLAYER chooses to leave his/her team:

- i. Player and/or Parent(s)/Guardian(s) must notify the coach in writing that the player requests to leave the team. The League must be copied on this letter if the player intends to play/transfer onto another SFYBL team .
- ii. There is a limit of one “transfer” onto a team.
- iii. Under special circumstances and at the discretion of the League Board, exceptions may be made.

C.) Involuntary Transfer - When a COACH excuses a player:

The Head Coach must notify the parent(s)/guardian(s) of the dismissed player in writing.* A copy must be sent to the League. (* “in writing” here and at all other places in this document includes email notification)

1) Process to place excused player:

Child/parents find a new team (as a “new” player).

Coaches and Parents should be aware that a team may add as many new players to the team as it likes. However, only one transfer player per team will be allowed per year.

2.) The League may assist in finding a team according to the following criteria:

- a. neighborhood/school vicinity of player
- b. practice schedule/player’s schedule
- c. roster size of teams
- d. other factors as decided by the SFYBL Board of Directors.

D.) When a TEAM DISBANDS:

There may be some cases in which a team will disband, meaning that this team will not be returning to play in the upcoming season. The League requests that the coach notify the League as soon as it is determined that the team will be disbanded.

If a team disbands before the Roster freeze deadline, then the remaining players may go to other teams as though they are New Players. If a team disbands during a season but after the Roster freeze deadline, the Board will place players on the three bottom teams still playing in the Division.

RULE 4: EQUIPMENT

- A. If a pitcher's plate is not available, the game shall be played without it unless the plate umpire judges the situation to be unsafe. The Home Plate umpire and both Managers may install a temporary plate, upon the agreement of its placement. The Umpire will be the final judge of its placement. Lacking any plate, the Umpire, with the consultation of both managers, will designate a spot from which pitchers will throw. The Umpire will be final judge of the spot from which pitchers will throw.
- B. Each team is expected to bring a set of 3 regulation bases to each and every game it plays, although the Home team is responsible for providing the bases for each game. A game cannot be legally played without Regulation Bases. There shall be no exceptions to this rule. The use of carpet squares or other substitute for regulation bases is prohibited.
- C. The league will provide each team with two (2) dozen approved game baseballs. **Use these game balls for games; do not use them in practices.** Teams are responsible to purchase additional approved baseballs as needed.
- D. Each team shall provide a minimum of two (2) balls to begin the game, and the teams shall provide additional balls as required.
 - a. The game shall be played with approved game baseballs whenever they are available.
 - b. Whenever necessary, the game shall be either played or continued with any acceptable regulation baseball.
- E. Conventional and matching baseball uniforms must be worn by all players.
 - a. A player's uniform must include his/her team's uniform shirt, uniform pants, and team cap, and these must all be appropriately worn (as used by teams in the major leagues).
 - b. All Uniforms must have numbers, and no number may be repeated.
 - c. When a player is out of uniform, the Plate umpire shall decide whether the player may play.
- F. Any player occupying the catcher's position must wear the required gear.
 - a. Required gear includes: shin guards, a chest protector, a catcher's mitt, and a catcher's mask with helmet and throat guard (hockey style mask is exempt from throat guard), and a protective cup. The catcher's headgear

- must be NOCSAE approved and give protection to the top of the head and both ears. No player will be allowed to catch an SFYBL game without all the required gear.
- b. Any non–adult warming up a pitcher at any location must wear an approved mask.
- G. The batter, players in the on–deck batting area, base runners, and any non–adult coaching in the baseline coaching boxes are required to wear protective headgear which gives protection to the top of the head, temples, ears, and base of skull.
- H. **METAL SPIKES ARE NOT ALLOWED.** The penalty is an automatic out.
- I. A player may not wear jewelry. Medical alert bracelets are exempted.
 - J. The pitcher’s glove shall be uniform in color, including all stitching, lacing, and webbing. The pitcher’s glove may not be white, gray or multicolored. Pitchers may not wear white or gray sleeves.
 - K. A pitcher may wear mirrored sunglasses provided that the opposing coach does not object.
 - L. All equipment is subject to the approval of the umpire(s), whose decision is final. Any equipment judged by an umpire to be potentially dangerous is illegal and should not be used.
- M. For the 2018 season, non-wood bats must meet one of the following standards:
- a. USSSA 1.15 BPF (players who wish to play in SFYBL Summer All Star teams should be aware that this bat standard is not acceptable for summer all star play)
 - b. USA Baseball bat standard
 - c. BBCOR Certified .50
- N. 2 ¾” barrel bats are not allowed
- O. The penalty for the use of an illegal bat is an automatic out.

RULE 5: PLAYING RULES

- 5.1 The Rules and Regulations of SFYBL contained herein have precedence whenever they apply.
- 5.2 All games shall be played in accordance with the current season’s MLB (Major League Baseball) Rules, PONY rules, and SFYBL PONY Rule Modifications, which include the NFHS rules for base running and issues of safety. When there

is a discrepancy among rules, the order of precedence is: SFYBL rules, PONY rules, MLB rules.

5.3 PLAYING RULES MODIFIED FOR SFYBL

- 5.3.1 Game time is forfeit time. If the scheduled start of a SFYBL game is delayed due to a previous game, practice, etc., the SFYBL game shall begin immediately after the completion of the previous activity.
- 5.3.2. All pre-game activity, such as but not limited to, inspection of gear for safety by the umpires, submission of the SFYBL orange lineup card to the umpire, and review of ground rules, shall be completed before the appointed starting time.
- 5.3.3 Taking the field for pre-game infield and/or outfield warm-ups is not guaranteed. Neither the League nor the umpire(s) are under any obligation to allow infield/outfield warm-ups. Due to time limits and other considerations, umpires are expected to start games on time.
- 5.3.4 Teams must to be ready either to hit or take the field at game time. A team will forfeit a game when it cannot field a minimum of 8 players in the field. During the game, if a team has fewer than 8 players available (e.g., players unavailable because of injury, ejection, etc.), it forfeits the game.
- 5.3.5 Home and Visiting Team are designated in the SFYBL Schedule. However, an umpire may switch Home and Visiting designations in an attempt to get a game started. For example, if the Home team is waiting for its catcher's gear to arrive, the Home team will switch to become the Visiting team and bat first, with the original Visiting team becoming the Home team and taking the field.

5.4 Lineups and Substitutions

5.4.1 Lineups

- a. The SFYBL orange lineup card contains the official lineup and batting order. Before the game, coaches of both teams must fill out this card.
- b. During the game, the lineup card is in the possession of the plate umpire, who must be notified of any lineup corrections or changes. The opposing coach must also be notified.
- c. Each team must decide to use one of the following batting lineups: the standard MLB 9-player lineup; a 10-player lineup, which contains 1 EH (extra hitter); or a continuous lineup, which contains all present players. **This decision must be made before the start of the game and told to the plate umpire.** A team cannot change its decision during the game; for example, change from a continuous lineup to a 9-player lineup at the 4th inning.

- d. If a team uses a continuous batting lineup, late arriving players are added to the lineup after the final slot in the order.
- e. If a team is not using a continuous batting lineup, late arriving players are substitutes. They enter the game only when a teammate (who is currently in the lineup) exits.
- f. A player must be in the batting lineup in order to play defense on the field.
- g. A team may play a game with only 8 players. However, the 9th spot in the batting order is an automatic out. **EXCEPTION:** If this automatic out were to end the inning, this out is postponed until the next inning. That is, the team will start the inning with one out already recorded.
- h. When it is a player's turn to bat, but the player is not available (e.g., injury, ejection, etc.) and a substitution has not been made, an automatic out occurs.
- i. When there are two outs, the team on offense may courtesy run for its catcher, who must immediately return to the dugout and put on his/her catcher's gear.
- j. When a player becomes injured running the bases, the team may courtesy run for him/her.
- k. If a team is using a continuous batting lineup, the courtesy runner is the player who made the last out. If a team is not using a continuous batting lineup, the courtesy runner must be a player who is not in the batting lineup.

5.4.2 Substitutions

- a. A substitution occurs only when a player not in the batting lineup replaces a player who is in the batting lineup.
- b. A player must be in the batting lineup in order to play defense on the field.
- c. If a team is using a continuous batting lineup, there are no substitutions per se. Players are free to switch among the defensive positions (except for pitcher) at any time.
- d. SFYBL has a mandatory participation rule. Every player must play at least 2 innings in the field and get at least 1 at bat each game. **Violation of this rule may result in a forfeit of the game.**

- e. If a team is using a continuous batting lineup, players who have not yet played defense must play on defense in the 4th inning (Mustang) or 5th inning (Bronco/Pony).
- f. If a team is not using a continuous batting lineup, players who have not yet been in the batting lineup must be put into the batting lineup in the 4th inning (Mustang) or 5th inning (Bronco/Pony).
- g. If a team is not using a continuous batting lineup, players who have not yet played defense must play on defense in the 4th inning (Mustang) or 5th inning (Bronco/Pony). It is illegal for a player to be an EH the entire game.
- h. Substitutions occur only when a team is using a 9-player or 10-player batting lineup. Players who are not in the starting batting lineup are the substitutes.
- i. Starting players who are substituted for can re-enter only once. They must return to their original position in the batting order. If a starting player re-enters, the corresponding substitute cannot re-enter the game.
- j. A spot in the batting order consists of the starting player and at most one substitute.
- k. **A player may bat in only one position in the batting lineup.** Players who are substituted out may return to the batting lineup, but only in their original position. For example, a team has a 10-player lineup: Abel, Baker, Charlie, Daniel, Edward, Frank, George, Henry, Irwin, John. Substitutes are Allen and Bob. In the 3rd inning, Allen substitutes for Abel and Bob for Baker. Later, if the coach wants Abel or Baker to return, Abel must substitute for Allen, and Baker for Bob.
- l. An exception to the substitution rule occurs when a player is removed because of injury or ejection. For the previous example, if after Allen and Bob have substituted for Abel and Baker (respectively), and Charlie becomes injured, either Abel or Baker may take Charlie's position in the lineup.
- m. When a team bats out of order, the player who should have properly batted is out. For example, Abel and Baker both strike out to start the inning. Daniel then comes up to bat and gets on base. The defensive team informs the umpire of the batting-out-of-order violation. Charlie (the player who was supposed to bat) is called out, and the inning ends. Daniel is the proper batter to start the next inning.
- n. If a team informs the umpire of the batting-out-of-order violation while the improper batter is still at bat, the proper batter then replaces the improper batter in the batter's box and assumes the count; there is no automatic out in this situation.

5.5 A player or coach who has any amount of blood must immediately have the situation corrected.

5.6 Base Running Safety Rules:

- a. When a defensive player has the ball and is waiting to tag the runner, the offensive player must avoid contact.
- b. Whenever legitimate defensive plays are made at bases, runners are required to either legally slide or attempt to avoid the fielder. If a runner's failure to comply hinders a fielder's play upon another runner, offensive interference may be ruled.
- c. **Effort must be made by all runners at all bases to avoid contact with defensive players, whether such players are legally or illegally in the runner's path.**
- d. When a fielder has the ball and is waiting to make the tag, the base runner must either slide or attempt to get around the fielder.
- e. When there is no play being made at a base, the runner is not required to slide. For example, the runner from first attempts to steal second. The catcher does not throw the ball to second. The runner is NOT required to slide. Another example, the runner from third attempts to score on a ground ball to the shortstop. The shortstop does not throw the ball home. The runner is NOT required to slide.
- f. If the fielder is illegally positioned (e.g., blocking the base without the ball) and the runner maliciously crashes into the fielder, the runner will be called out and ejected from the game. Malicious conduct supersedes obstruction.
- g. If a base runner's actions leading to ejection are judged to be flagrant, the League may further suspend the offender.
- h. When a fielder is illegally positioned and the runner slides or avoids contact, obstruction will be called. The said runner will be ruled safe.
- i. A fake tag by a defensive player is obstruction.

5.7 Additional Base Running and Related Rules

- a. Runners may lead off from all bases.
- b. In the Bronco and Pony divisions, balks will be enforced.

- c. In the Mustang division, balks will be enforced only when a runner is in the process of stealing. For example, when a runner is not attempting to steal and the pitcher illegally stops his delivery, the runner will NOT be awarded the next base.
- d. In the Bronco and Pony divisions, runners may steal second base, third base, and home per MLB rules.
- e. In the Mustang division, runners may steal second base and third base per MLB rules.
- f. In the Mustang division, a runner on third may not run home as the pitcher is throwing a pitch. Nor may the runner run home as the catcher is returning the ball to the pitcher. However, the runner may run home on a passed ball/wild pitch, an attempt by the defense to put out a runner, or a wild return throw by the catcher to the pitcher.
- g. Once a team has a 10 run lead, it may no longer steal bases or advance on passed balls/wild pitches. A runner may advance only when the batter puts the ball in play; a runner is forced to advance because the batter becomes a baserunner (i.e., uncaught strike 3); or the defense makes a wild pick-off attempt.
- h. Only feet first sliding is allowed. Head first sliding will result in the runner being called out. A headfirst dive or slide back into a previously touched base is allowed.
- i. On strike 3, the batter becomes a baserunner when the catcher does not legally catch the pitch and 1st base is unoccupied (at the time of the pitch), or when the catcher does not legally catch the pitch and there are 2 outs. For example, no runners on, pitcher bounces the pitch, batter swings and misses for strike three, catcher catches the ball. Because the ball bounced, the catch is not a legal catch. The catcher must either tag the batter or throw to 1st base to get the out. Another example, bases loaded, two outs, catcher drops strike three, resulting in the batter becoming a runner. So, to record the 3rd out, the catcher can tag the batter, throw to first, throw to second, throw to third, or step on home plate.
- j. If there are 0 or 1 out and 1st base is occupied at the time of the pitch, the catcher need not catch the 3rd strike; the batter is out.
- k. An exception to the uncaught strike 3 rule occurs if the pitch hits the batter with the end result being strike 3; the catcher need not catch this 3rd strike. For example, the batter's elbow is in the strike zone, the pitch hits the elbow for a called strike 3, the batter is out. Another example, batter swings and misses for

strike 3, but the pitch hits him/her. The batter is out. (In both situations, the ball is dead because it hit the batter.)

- I. Runners may steal on a foul tip. A foul tip is a batted ball that goes sharply and directly to the catcher's hand or glove and is legally caught. For baserunning purposes, a foul tip is treated as a "swing and miss" strike. There is no need for runners to "tag up" to advance.

5.8 Distance between bases:

Mustang – 60 Feet

Bronco – 70 feet

Pony – 80 feet

RULE 6: PITCHING RULES

6.1. Pitching distances:

- a. Mustang – 46 feet
- b. Bronco - 50 feet
- c. Pony – 54 feet

6.2. Pitch count restrictions for Pitchers:

In the following tables, "Age" refers to a player's age **as determined by date of birth and not their SFYBL nor Pony playing age.**)

Age	Maximum per day
7-8	50
9-10	75
11-12	85
13-15	95

If a pitcher reaches the pitch count limit while facing a batter, the pitcher may continue to pitch until that batter reaches base; or that batter is put out; or the third out is made to complete the half-inning or the game.

Days rest required after throwing X pitches in a day:

Age	1-20 pitches	21-35 pitches	36-50 pitches	51-65 pitches	66+ pitches
7-8	0	1	2	Not allowed	Not allowed
9-10	0	1	2	3	4
11-12	0	1	2	3	4
13-14	0	1	2	3	4

Days rest required after throwing X pitches in a day:

Age	1-30 pitches	31-45 pitches	46-60 pitches	61-75 pitches	76+ pitches
15	0	1	2	3	4

6.2.4 Any pitcher who has completed the pitch count restriction may not return to pitch the completion of a suspended game.

6.3 In the first inning in which a player appears as a pitcher, he/she is allowed a maximum of 8 warm-up pitches. In subsequent innings, he/she is allowed a maximum of 5 warm-ups pitches. Warm up pitches are to be completed within 1 minute.

6.4 No player can pitch again in the same game once he/she has been removed from the mound.

6.6 Each team is responsible for keeping track of the pitch count for its pitchers.

6.5 The coach of the winning team is responsible for reporting to the league the pitch count for all the pitchers who participated in the game.

RULE 7: LENGTH OF GAMES

7.1 At each game, the plate umpire will announce the official starting time. The starting time is the time at which the plate umpire determines that the home team's pitcher is ready to throw the first pitch.

7.1.1 The plate umpire's timepiece or timepiece designated by the plate umpire shall be the official game clock.

7.1.2 A new half inning begins immediately after the 3rd out of the previous half inning.

7.2 Game duration limitations:

7.2.1 Mustang games end after 6 innings or 2 hours (2:00) of playing time duration, whichever comes first. No new inning may start after 1:45 of playing time have elapsed.
