

## Adding your team to iScore with SI Play

Open the iScore app

Select "League Manager"

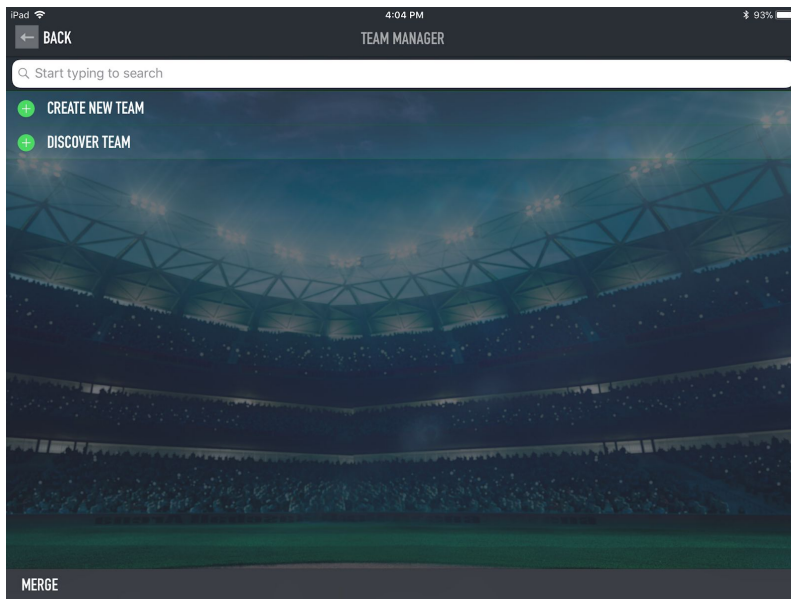

Select "Add a League"

Create your new league using the following naming standard... 2018 Lakeville North [insert Level] or 2018 Lakeville South [insert level] or 2018 Lakeville Community [insert level]. For example, 2018 Lakeville North 13AAA or 2018 Lakeville South 12AAA or 2018 Lakeville Community 6/7.

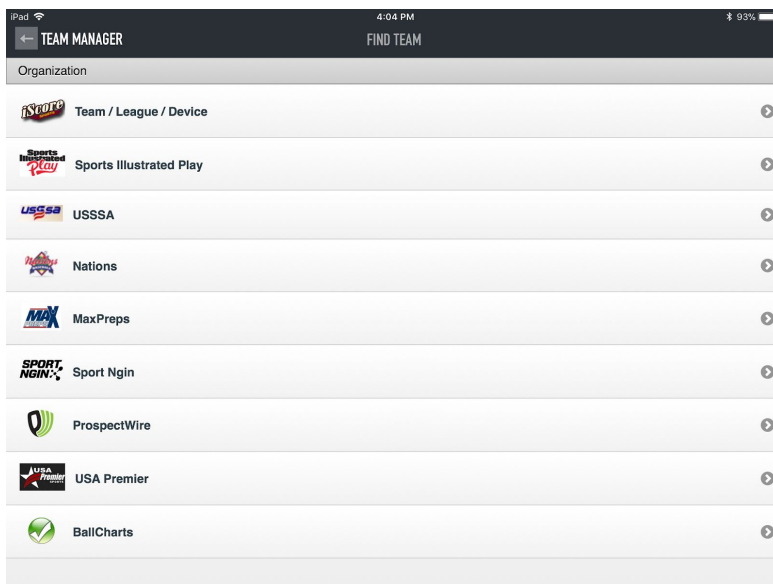

Also note you can use Leagues differently.

- Create a “league” for the MBL league games - use naming convention as above
- Create a “league” for tournaments - name is 2018 MBT Tournament

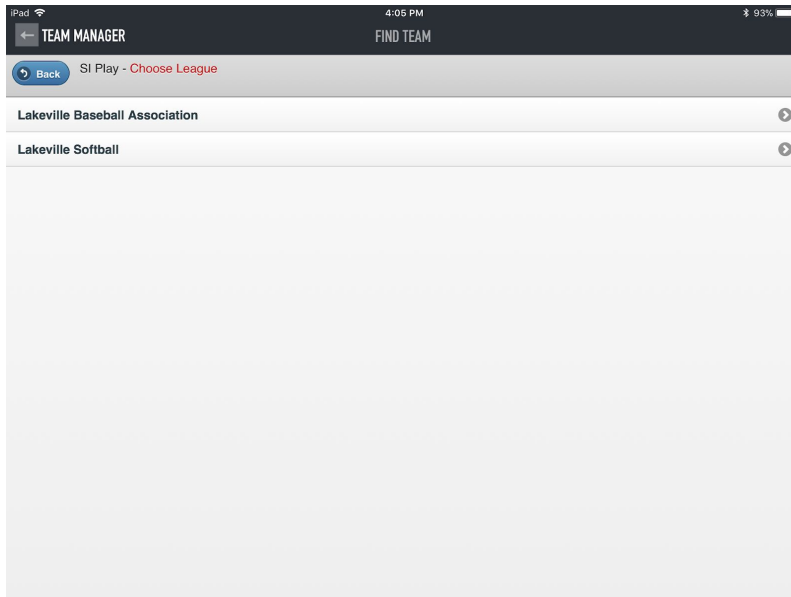

## Select “Team Manager”

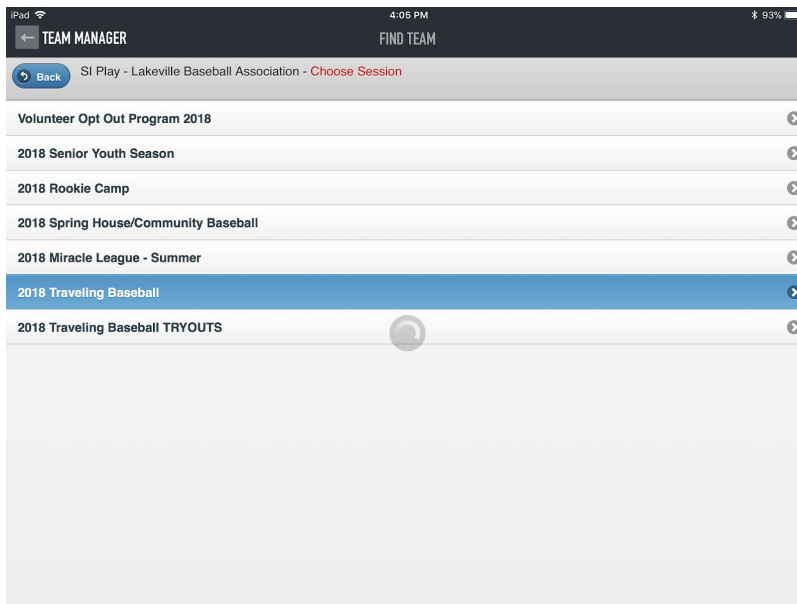

## Select “Discover Team”

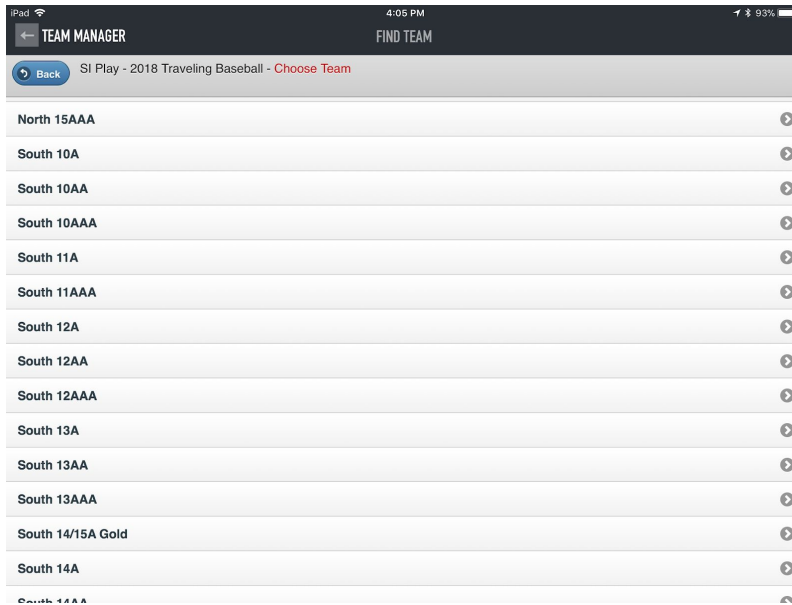

## Select "SI Play"

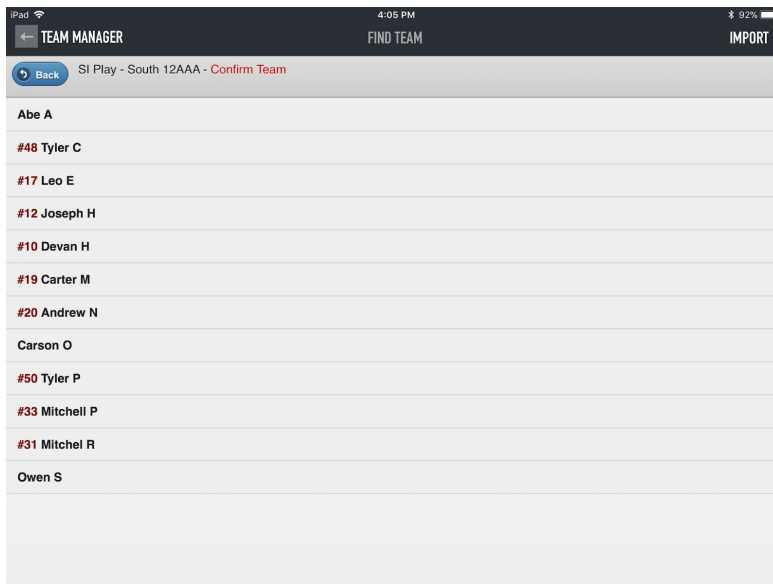

## Select "Lakeville Baseball Association"

## Select your team's session

## Select your team

## Confirm that this is your team.

Go back to Team Manager and select your team, then select the League setting and confirm that your team is associated to the new league. Uncheck any previous or other leagues that may be associated to the team.

You can also modify names by editing to include full names.
