### Marcus Clay Target Team Club Goals & Development:

Team practices and competitive shoots include the element of FUN for all participants. Participants learn the safe and responsible handling and use of firearms along with commitment to citizenship and service. They share common team goals while engaging in service as a requirement to letter. During this process, team members develop a proficiency that can be shared and enjoyed for a lifetime. These skills can lead to state and national competitions, which can open doors to collegiate and Olympic possibilities.
