General League Philosophy

Capitol Hill Little League (CHLL) provides a place for children ages 5-16 to have the opportunity to learn the game of baseball and softball. While set in a competitive environment, CHLL strives first and foremost to teach our players not only the rules of the game and the skills needed to play but to play the "right way" with honesty, respect, sportsmanship, confidence, responsibility, perseverance, and good judgment. Everyone involved in CHLL baseball and softball is expected to respect the umpires, their teammates, their coaches, the fields, and especially the players and coaches on the opposing team. We expect 100% effort from everyone on the field at all times. Our managers, coaches, and other volunteers are supplied with the training, resources, and support necessary to help our children become better baseball and softball players, competitors, and people.

Practice Philosophy

Our coaches are the mainstay of our league. Not only do they provide high-quality baseball instruction, they also focus their energy on helping players learn to play the right way. In order to support our volunteer coaches in their work, all players are expected to be on time for practices, to arrive ready to participate, and to give 100% effort and focus on the field at all times.

Game Philosophy

Our players will be prepared to play. They will be competitive and aggressive no matter the situation or the score. Our fielders will be ready and have a "want the ball" attitude. Our batters will want to make contact with the ball and be aggressive at the plate. Our pitchers will keep the game moving by minimizing time between pitches and will focus on throwing in the strike zone with the intent of forcing contact. Our players will do all of this while playing the "right way" with honesty, respect, sportsmanship, confidence, responsibility, perseverance, and good judgment.

Dugout Behavior

Coaches will ensure that our players understand that the dugout is part of the field and will act responsibly while using it. Our players will pay attention to the game and support all of their teammates, whether they're successful or struggle. Players will not yell or laugh at the other team. Teams will respect the dugouts by keeping them clean and picking up trash at the end of a game. Coaches must enforce the No "on deck" batter rule and ensure no bats are being swung in the dugout. It's important to avoid distractions during the game by having parents and other family members in the dugout, so they should be reserved for coaches and players only.

Parent Guidelines and Expectations

Parental support is essential to the functioning of an all-volunteer organization. Parents are key to getting players to practices and games on time and prepared to play. They also support the team during games, offering only encouraging words (not coaching advice) to players, and help out when asked by coaches. Our parents respect the opposing team players, coaches of both teams, and umpires. While our parents root for a team victory, they also respect the hard work and dedication to the game exhibited by both teams.

Baseball Benchmarks

This section of the document provides a series of benchmarks for different baseball skills, indicating the level at which it is hoped that a player of average ability will have mastered the skill. Players may begin to learn and use a given skill much earlier than the division in which the skill is expected to be mastered. This early exposure to a given skill is what will help the player master the skill at the appropriate time. There will always be players ready to move through these benchmarks faster than others, while other players may struggle to attain a certain benchmark or numerous benchmarks.

These benchmarks are not intended to be the final word on what must be taught and when. Rather, these benchmarks were compiled to establish a set of common expectations across the league about what players of average ability will be able to do when they move on to the next division.

Having said that, each skill area (e.g., batting, base running) contains numerous benchmarks. In some cases, a disproportionate number of the benchmarks may fall to one division for a particular skill. While this balances out when all of the skill areas are considered together, it may feel like the division in which you are coaching has a lot to cover. You are not imagining it; there is a lot to cover in every division. To that end, some benchmarks are listed in bold. These are the benchmarks that the league is most concerned that players master at the appropriate division level.

Over time, the benchmarks will be revisited to see if new benchmarks need to be added, refined, dropped, or moved to a different division. After you have had a chance to work with the benchmarks, your feedback will be one of the primary ways by which needed changes are identified.

Above all else, please keep in mind that these benchmarks are intended to be guidance. The particular situation in which you find yourself coaching in a given season may necessitate that you make different decisions about how you focus your coaching efforts. Should you find yourself in a challenging coaching situation, needing some help with practice or game plans, struggling through the benchmarks, or confused about the benchmarks, CHLL has a cadre of veteran coaches, led by our CHLL Coaching Coordinator(s), that can provide assistance. Please just reach out to the Coaching Coordinator(s), and we will get you the help you need.

Batting Benchmarks

Skill	A	AA	AAA	Majors	+ Majors
Wearing a batting helmet (why/how/when)	✓				
Understanding how to select the right bat	✓				
Understanding when to swing the bat	✓				
Understanding the basics of a proper batting stance	✓				
Understanding how to hit off a tee	✓				
Understanding how to hit a coach pitched ball	✓				
Understanding to hit and run towards 1B	✓				
Understanding the proper way to hold a bat (Which hand on top)	✓				
Understanding how to hit off a pitching machine		✓			
Understanding the proper way to hold a bat (Hands & Knuckles)		✓			
Understanding the proper way to swing the bat (load, trigger, and fire)		✓			
Recognizing clearly unhittable balls		✓			
Understanding how to drop, not throw, a bat, after making contact		✓			
Understanding the proper way to swing the bat by using the lower half of the body for power			✓		
Proper way to swing the bat by tracking the ball through the strike zone			✓		
Recognizing the strike zone and how it can change based on the umpire			✓		
Understanding how to hit with two strikes			✓		
Understanding how to bring the bat down when avoiding getting hit by a pitch			✓		
Understanding how to avoid injury in the batter's box (stay or go)			✓		
Understanding the basic mechanics of bunting			✓		
Understanding to observe the pitcher from the dugout, before an at bat			✓		
Understanding where to stand in the batter's box based on pitch location				✓	
Understanding the hit and run play				✓	
Understanding situational bunting				✓	
Understanding situational hitting				✓	
Understanding how to hit to the opposite field					✓
Understanding the depth of contact					✓

Base Running Benchmarks

Skill	A	AA	AAA	Majors	+ Majors
Understanding to run on contact as the batter	✓				
Understanding how to run through first base	✓				
Concentrating on base running and not watching the ball after it's hit		✓			
Understanding that you run the bases until a ball is called foul		✓			
Understanding never to slide into 1B on a hit		✓			
Understanding the basic mechanics of turning at 1B (e.g., no 90 degree turns)		✓			
Becoming aware of base coaches		✓			
Staying aware of the game and the current situation while on base		✓			
Knowing to run on contact with two outs		✓			
Understanding the difference between a force/no force situation		✓			
Understanding what to do when a pop fly is hit while on base		✓			
Understanding when to take an extra base on an overthrow of a base		✓			
Understanding to work with base coaches, including transition from 1B to 3B			✓		
Understanding to make proper & efficient turns at all bases			✓		
Understanding the fundamentals of sliding			✓		
Understanding when to take an extra base			✓		
Understanding how to take a secondary lead			✓		
Understanding how to avoid running into a tag			✓		
Understanding how to avoid obstruction			✓		
Understanding how to tag up on pop flies			✓		
Understanding situational base running (e.g., when to take an extra base)			✓		
Understanding the basic mechanics of stealing			✓		
Understanding what situations a runner should steal a base			✓		
Understanding how to avoid contact with the catcher for plays at home plate			✓		
Understanding the mechanics of a headfirst slide				✓	
Understanding the Infield Fly rule				✓	
Understanding to run on a dropped third strike				✓	
Working with base coaches to understand signs				✓	
Understanding how to execute a delayed steal				✓	
Understanding how to take leads off bases					✓
Understanding how to execute a suicide & safety squeeze					✓

Throwing / Catching Benchmarks

Skill	A	AA	AAA	Majors	+ Majors
Understanding proper weight shift and use of lower body to throw	✓				
Understanding proper alignment to throw (perpendicular to target)	✓				
Understanding the proper arm motion	✓				
Using the front shoulder and glove to aim a thrown	✓				
Understanding the proper way to grip the ball (2 or 3 fingers depending on hand size)		✓			
Understanding a 4 seam grip		✓			
Understanding to be a good target		✓			
Understanding how to position the glove based on where the ball is going to be (fingers up/fingers down)		✓			
Understanding to squeeze the glove on a catch		✓			
Understanding how to move feet to the ball to be centered to receive the throw		✓			
Understanding how to create an “L” as you pull the ball back to throw; ball faces backwards		✓			
Understanding the “equal and opposite” concept (“L” with throwing arm and with glove arm)		✓			
Understanding to use the wrist		✓			
Understanding when and how to use an underhand toss (e.g., flip and follow)			✓		
Understanding proper follow through and release of energy in rear leg			✓		
Understanding quick release in order to throw the ball quickly upon fielding it			✓		
Understanding correct arm follow through on throws (and pitches)			✓		
Understanding to gauge strength of throws (based on distance and person catching the ball)			✓		
Understanding to keep the ball on the fingertips, not the palm				✓	
Understanding crow hop for long, deep throws from the outfield				✓	

Fielding (Infield) Benchmarks

Skill	A	AA	AAA	Majors	+ Majors
Understanding “ready Position”	✓				
Understanding how to move to the ball to be in position to field it	✓				
Understanding correct fielding position: rear-end low, feet wide, hands out in front, glove down touching the ground, throwing hand alongside to help	✓				
Understanding how to watch the ball into the glove and cover with top hand		✓			
Understanding how use your body to stop the ball		✓			
Understanding proper base footwork		✓			
Understanding whether a given play is a force or a tag					
Understanding how to cover a base based on where the ball is hit		✓			
Understanding how to call for the ball on a pop up		✓			
Understanding how to run a baserunner back to the base of origin		✓			
Understanding when and how to flip and follow a throw to a base		✓			
Understanding how and when to do a creep/ready step		✓			
Understanding how to prepare to throw after fielding by shuffling toward the target			✓		
Understanding how to cover a base on a steal attempt			✓		
Understanding how to back up other fielders and the pitcher			✓		
Understanding how to call off another infielder			✓		
Understanding where to throw the ball based on the situation			✓		
Understanding the proper footwork to field a grounder (grounder nearby, grounder further away)			✓		
Understanding proper use of glove when ball is to the backhand or forehand side body				✓	
Understanding how to execute a double play				✓	
Understanding when to throw the ball during a rundown				✓	
Understanding how to establish a throwing lane				✓	
Understanding when and how to look a runner back in a non-force situation before trying to get the force out				✓	
Understanding the proper positioning to receive a cutoff throw				✓	
Understanding bunt coverage				✓	
Understanding pick-off plays from the catcher				✓	
Understanding how to communicate with other infielders				✓	
Understanding how to make the correct tag (tag low)				✓	
Understanding how to hold runners on base (keeping their leads small)					✓
Understanding situational position (e.g., infield in)					✓

Fielding (Outfield) Benchmarks

Skill	A	AA	AAA	Majors	+ Majors
Understanding the proper glove position to watch the ball into the glove		✓			
Understanding how to backup the infield		✓			
Understanding how to backup other outfielders		✓			
Understanding how to call for the ball		✓			
Knowing where LF, CF, and RF are		✓			
Understanding how to move to the ball (In, out, left, right)			✓		
Understanding proper body position to receive a fly ball with baserunners			✓		
Understanding to take an arced line to the ball			✓		
Understanding how to do a drop step				✓	
Understanding when to hit cut off or throw through				✓	
Understanding how to field a ground ball in the outfield, depending on whether there are runners on base or not				✓	
Understanding an over the shoulder catch				✓	
Understanding how to shift left or right depending on the batter					✓

Pitching Benchmarks

Skill	A	AA	AAA	Majors	+ Majors
Understanding where the strike zone is			✓		
Developing a basic knowledge of a balanced, aligned delivery, the use of the rubber, release points, finishing in a good fielding position to be ready for the ball to be hit to the pitcher			✓		
Understanding how to throw from the stretch			✓		
Understanding the difference between throwing and aiming			✓		
Understanding how to control the running game by getting back to the rubber after a pitch, hit, or out			✓		
Understanding how to make basic plays at their position			✓		
Understanding the procedure after hitting a batter (shake hands)			✓		
Understanding how to cover home			✓		
Understanding of when the catcher and umpire are ready for a pitch			✓		
Having the opportunity to pitch in a game (minimum of three consecutive batters)			✓		
Demonstrating mastery of pitching from the stretch				✓	
Understanding how to throw a 4-seam and 2-seam fastball				✓	
Understanding the basic mechanics of a change up				✓	
Understanding of how to cover 1B on a ground ball to 1B				✓	
Having the opportunity to pitch in a game (minimum of three consecutive batters)				✓	
Understanding of signals from the catcher				✓	
Understanding how to throw from the windup					✓
Understanding how to change location within the strike zone (i.e., high vs. low, inside vs. outside)					✓
Understanding pitch count (balls and strikes) and appropriate pitches in particular situations (e.g., when to throw a fast ball versus and off speed pitch)					✓
Understanding of effective pitch sequences and of how to pitch to hitters of different abilities					✓
Understanding how to adjust to the variation in umpires' strike zones					✓
Pitchers will have the ability to control the running game. They will have experience with picks to 1st and 2nd base. They will understand how to vary their looks, hold the ball for various lengths of time, and pitch out. Pitchers will work to minimize their times to the plate, while keeping command and stuff as the priority					✓
Demonstrating mastery of some form of breaking ball					✓

NOTES

Managers/coaches are asked to give every AAA and Majors player an opportunity to pitch in a game for a minimum of three consecutive batters, unless there are concerns about a player's safety or a player absolutely refuses to try to pitch. Managers/coaches should be trying to develop as many pitchers as possible.

At the AAA and Majors levels, players should only be throwing fast balls and change ups. Players should be strongly discouraged from throwing breaking balls or curve balls.

Catcher Benchmarks

Skill	A	AA	AAA	Majors	+ Majors
Understanding how and when to put catcher's gear on		✓			
Understanding how to catch with a catcher's mitt		✓			
Understanding the basics of where to setup and proper catching position		✓			
Understanding how to safely position the throwing hand			✓		
Understanding the basics of receiving the ball (e.g., moving the arm to the ball)			✓		
Understanding how to move the body to receive the ball			✓		
Understanding how to provide a target for the pitcher			✓		
Understanding to throw the ball back to the pitcher w/o making him/her work			✓		
Understanding how to handle pop ups at/around home plate			✓		
Understanding how to throw to a base when a runner is stealing (1B, 2B, 3B)			✓		
Understanding how to cover the plate on a play at home			✓		
Understanding how to make a proper tag on a play at home			✓		
Understanding the rules on blocking the plate			✓		
Knowing how to communicate outs and base runners to team				✓	
Understanding how to handle the catcher's mask				✓	
Catching from a relaxed stance (no base runner, less than two strikes)				✓	
Catching from a ready stance (runners on base, two strikes on batter)				✓	
Knowing how to communicate outs and base runners to team				✓	
Understanding how to handle the catcher's mask				✓	
Catching from a relaxed stance (no base runner, less than two strikes)				✓	
Catching from a ready stance (runners on base, two strikes on batter)				✓	
Understanding how to block balls, including balls that bounce in front of home plate or are outside				✓	
Understanding how to handle wild pitches				✓	
Understanding how to handle bunts				✓	
Understanding how to cover a delayed steal				✓	
Understanding where to setup and be in position based on the pitch call				✓	
Understanding how to frame the strike zone				✓	
Understanding how to backup first base on a routine grounder				✓	
Understanding the rules of a dropped third strike				✓	
Understanding when to throw or not throw on a steal				✓	
Understanding how to give signals to the pitcher				✓	
Understanding how to execute a pickoff play at 1B and 3B				✓	
Understand how a pitch will bounce based on its rotation if it hits the ground					✓
Understanding how to call pitches (by pitch type & location)					✓

NOTES

All male catchers must wear a protective cup.
 All male players are encouraged to wear a cup.
