

## **2019 Player Evaluation Weekend is February 2nd & 3<sup>rd</sup>, with any spillover on February 10th!**

All Mustang and Bronco baseball players are asked to attend.  
Players will be asked to take turns batting, fielding and running the bases. See below for the schedule for your player's age bracket. NSB coaches attend the evaluation in order to better get to know the players and their skill sets. Evaluations are not required for Shetland or Pinto Divisions.

### **How are the teams formed?**

At the beginning of each season evaluations are held in each of the age groups and a rating is created for each player. The rating is formed from not only the short try-out, but past ability history or other information deemed necessary to assess a player's ability. Once these ratings are done, a draft is held with a league official and the team managers that have been selected by NSB

The purpose of player evaluation is to draft teams that are equally matched in terms of experience and skill. Players who don't attend are still placed on a team (in some cases by hat draw).

Coaches kids do not have to attend. If not in attendance they will count as the first round selection (or 2nd round if 1st is already filled)

### **What should players bring?**

Players will be running, fielding and batting. If at all possible, they should wear baseball attire including baseball cleats and baseball pants or sweats. Players should also bring a glove, and water bottle.

Batting helmets, bats and baseballs will be provided but players can also wear their own helmets and hit with their own bats.

### **What happens next?**

At the end of the evaluation weekend, NSB coaches will get together and draft players onto teams. Everyone gets placed onto a team, even players who can't attend one of the evaluation days.
